Norwottuck Rail Trail Rehabilitation Project Update

March 13, 2009

We've made some additions to the **Related Documents** section of the NWRT Rehabilitation project webpage. Please visit the project page at

<http://www.mass.gov/dcr/projects/norwottuck>

There, you'll find the PowerPoint presentation Stantec gave during the most recent Norwottuck Rail Trail Advisory Committee meeting on February 25 and the Pre-Design Public Comment Summary, with most of its appendices.

Unfortunately, we're not able to post Appendix B with the scanned written letters due to the huge file size. However, a notebook with the complete document, including copies of letters received before February 25, is available for viewing during normal business hours at the Connecticut River Greenway Office located at 136 Damon Road, Northampton.

Happy Trails!
